

## Devin Saverline FullStory Take Home Test Automation

Code can be found at:

<https://github.com/Penguinsama/FullStoryTakeHomeTest>

### NOTE:

The test does not work. As far as I can tell, something about Cypress is keeping the XHR calls to <https://rs.fullstory.com/rec/bundle> from triggering. I am confident that with a little bit of time with an engineer familiar with the loading/triggering of the calls (or more documentation) I would be able to figure out how to fix the issue.

I hope this will not cause me to fail the test.
